

SYMPHONY POPS MUSIC

Disney In Concert

Dante Payne: Growing up in southern Chicago, Dante has always been around music from Gospel to Musical Theatre to Rock n Roll. His family encouraged him to be creative in anyway, always supporting each step of his journey. With regular trips to Disney every year of his childhood, he quickly became fascinated with storytelling. He found that music has a way of taking us to a different world. Dante launched into a career of music at the early age of 8 and hasn't looked back since. Performing with different groups in his adolescence and at Kings Island whilst in college taught him resilience, stamina, and how to be a strong performer.

After seeing the world with Celebrity Cruises, he found himself at home at Disney World. He has been with Disney for 5 years, 3 of which were spent at Hong Kong Disneyland. Dante's now happily back in Orlando. He loves any chance to tell the wonderful and heartfelt stories that Disney has been bringing into our lives for over a century. Dante's family have been the best support system for him. He really believes that the real magic is in the way which we embrace, cherish and love those around us.
